

March 17, 2020

To Our Valued Customers:

In these uncertain times we remain committed to serve you. Our branch locations across the US are open to fulfill shipping commitments and provide customer service and technical support. Our local teams and corporate staff are available to assist you.

We have taken steps to ensure the safety and protection of our associates by directing those who can perform their duties from home to do so. This will provide more "social distancing" for those individuals who are staffing our counters, warehouses and shipping/receiving departments. We are following all CDC recommendations and taking extra precautions to wipe down our counter areas and maintain the cleanliness of our facilities for your protection.

We appreciate the important work that you do and are committed to serve your needs during these difficult times. Stay safe and know that we are here to support you.

Sincerely,
Darrin Anderson
Chief Executive Officer
